Re: Notice of Intent and Mining & Reclamation Plan for the Black Gnat Mine
ACT/047/008

Dear Mr. Hatch:

Enclosed is a copy of our suggestions to your preliminary plan dated January 31, 1977, and the original plan itself, so you may make the necessary additions. Please read the additions carefully so you know what the commitment is.

Copies of the local area map are also included for your utilization to draw in roads, etc. Remember that we would like a map of where facilities will be located around the shafts. A sketch map will suffice for this purpose as long as it clearly shows where the stockpile, reject pile, shafts, and soil stockpile are located.

Please let us know if you need any additional assistance in this matter.

Very truly yours,

DIVISION OF OIL, GAS, AND MINING
